Slips, trips and falls	Soft tissue injury e.g., sprain, bruising. Potential broken ankle or other breaks i.e. wrists etc. Links directly to weather and ground surfaces.	All participants and organisers/staff and spectators	2	3	6	Check ground conditions for holes, lumps, and other obstacles.	1	3	3	If the injury is serious and participant in a lot of pain or discomfort, seek medical attention immediately. Call 999 in an emergency. Any incidents need to be reported as soon as possible ensuring duty manager/health and safety officers have been informed. Follow SUSU incident report policy.	

PART A										
(1) Risk ident						essment				nagement
Hazard	Potential Consequences	Who might be harmed  (user; those nearby; those in the vicinity; members of the public)	Likelihood	Impact	Score	Control measures (use the risk hierarchy)	Likelihood	Impact	Score	Further controls (use the risk hierarchy)
Fire	Smoke inhalation, burns and more severe. Risk of extreme harm.	All participants and organisers/staff and spectators	1	5	5	Those leading the session must ensure they are aware of and fully understand the venue or locations fire procedures.  Those leading must make sure that all exit routes are clearly highlighted and report any issues immediately to the venue.  Highlight to all the participants the nearest emergency exit routes at the start of a session, and the importance of leaving calmly in case of an emergency.  Consider accessibility requirements	1	4	4	In case of an emergency, please pull nearest fire alarm and ensure all participants leave the venue calmly and safely.  Once in a safe position to do so, call the emergency services on 999.  Any incidents need to be reported as soon as possible ensuring duty manager/health and safety officers have been informed. Follow SUSU incident report policy.

PART A												
(1) Risk iden	tification		(2) Risk assessment					(3) Risk management				
Hazard	Potential	Who might be	Inh	eren	t		Res	sidua	ıl	Further controls (use		
	Consequences	harmed  (user; those nearby; those in the vicinity; members of the public)	Likelihood	Impact	Score	Control measures (use the risk hierarchy)	Likelihood	Impact	Score	the risk hierarchy)		
Electronics	Risk of eye strain, injury, electric shock	Committee and attendees	2	4	8	Ensure regular breaks (ideally every 20mins) when using screens  Ensure screen is set up to avoid glare, is at eye height where possible  Ensure no liquids are placed near electrical equipment  Ensure all leads are secured with cable ties/mats etc	1	4	4	Request support and advice from SUSU IT/Tech teams e.g. via activities team  For external venues precheck equipment and last PAT testing dates Seek medical attention as required

	Consequences	harmed  (user; those nearby; those in the vicinity; members of the public)	Impact	Score	Control measures (use the risk hierarchy)	Likelihood	Impact	Score	the risk hierarchy)	
Financial Risk:  For the club or society, or potentially even SUSU if the club/soc finds itself in difficulty.	Club or society activity costing more than planned, weakening their financial position.  Incidents with members of the public, participants, staff or members causing lawsuits and financial penalties.	The club or society  Members subject to lawsuits  SUSU if required to assist.	1	1	1	Clubs and societies required to complete financial forecasting and budget for the year.  All encouraged to review membership fees yearly to ensure they are able to comfortably cover costs.  SUSU can offer clubs and societies loans – these will need to be agreed and a payment schedule decided upon. Clubs and societies that have to rely on a loan will be subject to development plans to ensure their future is	1	1	1	

PART A										
(1) Risk identific	cation		(2)	Risk	ass	essment	(3)	nagement		
Hazard	Potential	Who might be		Inherent			Residual			Further controls (use
	Consequences	harmed  (user; those nearby; those in the vicinity; members of the public)	Impact	Score	Control measures (use the risk hierarchy)	Likelihood	Impact	Score	the risk hierarchy)	
Legal Compliance: Club or society activity going against set law. This includes breaches of the freedom of speech act	Fines imposed upon the student group as well as SUSU.  Jail sentences.  Reputational risk to the student group, SUSU and the wider University	The club or society, committee and members, SUSU or the Wider University.	1	1	1	All clubs and societies should ensure they are following set law at all times. If ever in doubt, they will contact the Activities team prior to the activity taking place.  All who wish to bring in an external speaker must follow due process, available here  This will be looked over by the University Legal Services team, and may require security being consulted and an extra risk assessment being submitted.	1	1	1	

Medical Issues:  Pre-existing and process for any that appear during club or society activity  Activity Consideratio	Illness, death	Members, committee	3	5	9	All clubs and societies should have a process for if a medical issue occurs.  All should know the location of the nearest first aider. Members do not need to disclose medical information to committee (GDPR), but all committee should know how to find a first aider and help quickly.  If in a Southampton Sport space, contact reception. If no-one can be found, contact campus Security – 02380 593311  Advise participants; to bring their personal medication  Members/Committee to carry out first aid if necessary and only if qualified and confident to do so	1	1	1	In an emergency, contact 999.  Any incidents need to be reported as soon as possible ensuring duty manager/health and safety officers have been informed. Follow SUSU incident report policy.
•		I au								
Equipment: any equipment the sport requires/uses needs to be risk assessed.	Cut/abrasion/ bruising from sharp edges. Is the equipment safe to be used?	All participants and bystanders.	2	2	4	Check all equipment prior to use. Is it safe to use? Does it have any sharp edges? Is it damaged in any way?	1	1	2	Seek medical attention if problem arises  Any incidents need to be reported as soon as possible ensuring duty

	Consequences	harmed  (user; those nearby; those in the vicinity; members of the public)	Likelihood	Impact	Score	Control measures (use the risk hierarchy)	Likelihood	Impact	Score	the risk hierarchy)
Injury from insufficient warmups	Pulled or strained muscles	Players/Participants	3	3	9	Players/participants told the benefits of an effective warm up and encouraged to complete. Warmups led by an appropriately qualified or experienced individual. Appropriate recovery methods also discussed to ensure muscles are more pliable to warm up.	1	3	9	If the injury is serious and participant in a lot of pain or discomfort, seek medical attention immediately. Call 999 in an emergency. Any incidents need to be reported as soon as possible ensuring duty manager/health and safety officers have been informed. Follow SUSU incident report policy.
Qualification of coaches/instructors	Participants could be hurt or hurt each other if the coach does not possess relevant qualifications to be able to deliver the sport or activity safely.	Players/Participants	3	3	9	Clubs will source coaches/instructors that have the relevant qualifications to deliver their sport to that target audience (for example, football coaches will need a UEFA C/FA level 2 to be able to coach a team). Clubs are to research this and liaise with the students union.	1	3	3	

PART A										
(1) Risk iden	ntification		(2)	Risk	ass	essment	(3)	Risk	mar	nagement
Hazard	Potential	Who might be	Inh	eren	t		Res	idua	ıl	Further controls (use
	Consequences	harmed  (user; those nearby; those in the vicinity; members of the public)	Likelihood	Impact	Score	Control measures (use the risk hierarchy)	Likelihood	Impact	Score	the risk hierarchy)
Lighting	Players/Participants unable to see each other, the equipment or obstacles clearly, resulting in a higher risk of injury.	Players/Participants, Coaches/Instructors	5	4	20	Training and matches will only take place where there is sufficient light. Coaches and committee are deemed to be responsible for determining what is a safe light level.  If lights are not working, this will be reported to Southampton Sport and the session stopped. SUSU Sports Coordinators will not schedule training or games in unlit areas past the predicted sunset.	1	4	4	If the injury is serious and participant in a lot of pain or discomfort, seek medica attention immediately. Call 999 in an emergency. Any incidents need to be reported as soon as possib ensuring duty manager/health and safety officers have been informed. Follow SUSU incident report policy.

	Consequences	harmed  (user; those nearby; those in the vicinity; members of the public)	Likelihood	Impact	Score	Control measures (use the risk hierarchy)	Likelihood	Impact	Score	the risk hierarchy)
Violent or offensive behaviour	Participants may become violent or offensive due to the consumption of too much alcohol.  Members of the public may act violently towards participants.	Event organisers, event attendees,	2	5	10	Bouncers will be present at most venues. Bar Security staff will need to be alerted and emergency services called as required. The consumption of alcohol will take place at licensed premises. The conditions on the license will be adhered to and alcohol will not be served to customers who have drunk to excess Committee to select 'student friendly' bars/clubs and contact them in advance to inform them of the event Society to follow and share with members Code of conduct/SUSU Expect Respect policy	1	3	5	If the situation becomes very serious and results in the participant being arrested then it will be made clear that they cannot be accompanied to the police station.  Follow SUSU incident report policy  Call emergency services as required

Hazard	Potential	Who might be	Inh	eren	it		Residual			Further controls (use
	Consequences	harmed  (user; those nearby; those in the vicinity; members of the public)	Likelihood	Impact	Score	Control measures (use the risk hierarchy)	Likelihood	Impact	Score	the risk hierarchy)
Slips, trips and falls as a result of alcohol	Consumption of too much alcohol may result in participants falling and subsequently injuring themselves.	Event organisers, event attendees,	3	2	6	Committee to check that chosen venues meet the following requirements:  - Venue is in good condition with no major trip hazards.  - Bar staff monitor the condition of the floors & mop up split drinks.  - Security staff & Bar Staff provide first aid cover.  DJ's or bands equipment placed so as not to form a trip hazard. Power supply leads taped down.	3	1	3	If necessary, emergency services will be called  Request first aid at venue  Follow SUSU incident report policy
Allergies - food and drink	Allergic reactions to food and drink when out	Event organisers, event attendees,	3	5	15	Attendees responsible for own welfare I such instancesfollow guidelines of venues. First aid requested from bar staff as required.	1	5	5	Call Emergency Services/alert bar staff

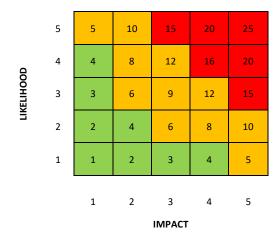

## PART B - Action Plan

## **Risk Assessment Action Plan**

Part	Action to be taken, incl. Cost	By whom	Target date	Review	Outcome at review dat	e
no.				date		
Α	Check pitch conditions prior to beginning game (no cost)	Team captains	Before each game	n/a		
Α	Ensure players have adequate protective gear- football boots + shin pads (~£10)	Players	Before each game	n/a		
Α	Ensure first aid kit is on site to treat wounds/cuts/injuries if required (~£25)	Wide Lane staff	Before each game			
Respo	onsible committee member signature: Jose	ph Murphy		Respons	ible committee member signature: Dai	n Key
Print	name: Joseph Murphy		Date: 16/09/2024	Print nan	ne: Dan Key	Date: 16/09/2024

## **Assessment Guidance**

1. Eliminate	Remove the hazard wherever possible which negates the need for further controls	If this is not possible then explain why	1
2. Substitute	Replace the hazard with one less hazardous	If not possible then explain why	2
3. Physical controls	Examples: enclosure, fume cupboard, glove box	Likely to still require admin controls as well	3
4. Admin controls	Examples: training, supervision, signage		4
5. Personal protection	Examples: respirators, safety specs, gloves	Last resort as it only protects the individual	5

## Risk process

- 1. Identify the impact and likelihood using the tables above.
- 2. Identify the risk rating by multiplying the Impact by the likelihood using the coloured matrix.
- 3. If the risk is amber or red identify control measures to reduce the risk to as low as is reasonably practicable.
- 4. If the residual risk is green, additional controls are not necessary.
- 5. If the residual risk is amber the activity can continue but you must identify and implement further controls to reduce the risk to as low as reasonably practicable.
- If the residual risk is red <u>do not continue with the activity</u> until additional controls have been implemented and the risk is reduced.
- 7. Control measures should follow the risk hierarchy, where appropriate as per the pyramid above.
- 8. The cost of implementing control measures can be taken into account but should be proportional to the risk i.e. a control to reduce low risk may not need to be carried out if the cost is high but a control to manage high risk means that even at high cost the control would be necessary.

Impa	act	Health & Safety
1	Trivial - insignificant	Very minor injuries e.g. slight bruising
2	Minor	Injuries or illness e.g. small cut or abrasion which require basic first aid treatment even in selfadministered.
3	Moderate	Injuries or illness e.g. strain or sprain requiring first aid or medical support.
4	Major	Injuries or illness e.g. broken bone requiring medical support >24 hours and time off work >4 weeks.
5	Severe - extremely significant	Fatality or multiple serious injuries or illness requiring hospital admission or significant time off work.

Likelihood	
1	Rare e.g. 1 in 100,000 chance or higher
2	Unlikely e.g. 1 in 10,000 chance or higher
3	Possible e.g. 1 in 1,000 chance or higher
4	Likely e.g. 1 in 100 chance or higher
5	Very Likely e.g. 1 in 10 chance or higher
